

School of Electrical and Computer Engineering Projected Schedule of Graduate Courses

The following table lists the ECE graduate courses currently projected to be offered at the Atlanta campus and through the video/internet distance education program. Classes taught at GT-Lorraine, GT-Shenzhen, or as part of study abroad programs are not listed.

The projected schedule of classes is normally updated each year during summer semester. The projected schedule for the coming year (2024-25) is fairly certain; changes will be reflected in the registration schedule for each term. The projected schedule for 2025-26 is preliminary and is likely to be modified significantly in summer 2025.

Additionally, summer schedules are subject to changes in student enrollment, budgets, and/or faculty availability. Summer graduate electives will be offered as faculty and resources are available, but there is no guarantee that any graduate electives will be offered in future summer terms. There are no current plans to offer graduate electives in Atlanta during future summer terms.

X = course scheduled to be offered

? = course may be offered in this term, based on prior years' schedules

ST = special topic course (offered as ECE 88xx)

video = course offered via video/internet in addition to on-campus section

altvid = course normally offered via video/internet in alternate years; not offered via video/internet this
